What We Learned...

February 2026

Language Arts

Students in 7th grade are finished Unit 3 and are starting Unit 4 about change. Students have been writing 3 paragraph stories about problems and solutions, and compare contrast to prepare for their essay at the end of their novel, *A Wrinkle in Time*. Students will be finishing the book within the next week, and have been completing chapter reading guides as they worked. They have also been working on practicing for the upcoming Spelling Bee.

Mathematics

Students have been working on solving for variables in equations where X is within a fraction. In addition, they have been solving equations with multiple variables to solve for.

Science

We concluded the skeletal system by analyzing X-rays of healthy and injured bones. Students then began the respiratory system with a guided breathing and relaxation activity using yoga mats. After listening to a descriptive explanation, they created drawings of the respiratory system based on their visualizations.

History

Students have been learning about World War 1 including battles, new technology, and cultural changes. They have been analyzing the causes and lasting effects of the war.
