

Grade 0 Newsletter - May in Review

Introduction

We were very busy this month. We had a field trip to the Wedel Chocolate Factory for our unit on sweets. We celebrated national holidays, Mother's Day and honored the music of The Beatles. We enjoyed longer and warmer days.

Language Arts

We have been reading fairy tales, myths and legends in our class. We practiced writing letters in lower case and capital formats. We wrote in sentences and learned vocabulary about music, sweets, jobs and careers.. We visited the school library to borrow books.

Mathematics

In math we mastered counting numbers up to 30. We continued our work with addition, subtraction and basic word problems. We practiced counting up to 100 and identifying number patterns. We counted syllables in song lyrics to write a new version.

Social Studies

We learned about music genres from around the world and songs from other cultures. We studied facts about The Beatles. During our unit about music we also learned how to sing a traditional song from Scotland. We tried dances from Latin America and listened to classical music. We imagined our future jobs and vocations.

Science

During our science lessons we learned about how candy and desserts are made. We practiced vocabulary about careers in science and technology. We studied the science of sound and vibrations. We looked at the instruments of the orchestra and how each one contributes to the music of a concert. We studied the planets and features of our solar system. We observed the changes around us during the spring.

Art

During our art lessons we drew different jobs and vocations and what we learned about careers in the future. We illustrated musical instruments and responded to music with shapes and colors. We used paper to craft bouquets of flowers for Mother's Day.
