What We Learned...

May 2026

Language Arts

Students worked hard on wrapping up their 3rd book, *The Outsiders*. They completed their novel study packets, and completed the final exam and essay for the book.

Grade 7 were thrilled to take their last spelling quiz of the school year!

Unit 5 of their Keystone book is all about Exploration. To wrap up the unit, they are researching a US state of their choice and are role playing as travel agents to convince others to go to their state. We are working on persuasive writing with this assignment.

Mathematics

Students wrapped up a unit on Exponents and Roots. They started working on surface area and volume of prisms and cubes.

Science

Students carried out an experiment to investigate how saliva breaks down carbohydrates in food, proving that digestion begins in the mouth. To conclude the unit, students researched diseases affecting the digestive system.

History

Students worked in groups to create a video project about the History of Cinema. They created the video using the movie techniques used in the era they researched.
